

Managing Negative Learning Behaviours

We recognize that everybody, child and adult alike, make mistakes. These mistakes become important learning opportunities when we are given time to reflect upon them and support to build positively from them.

We are retaining some key features of our existing traffic light system but have made a few important changes to reflect the needs of our school community going forward.

Behaviour for Learning

Spring 2018

Our Behaviour for Learning policy aims to ensure that all members of the school community can learn in a safe, supportive and productive environment.

At Ivydale, we have extremely high expectations of all our pupils in terms of their social interactions, emotional growth and academic attainment. We ask all parents to work in partnership with us to uphold these expectations.

Through consultation with pupils, parents, school staff and other schools, we have designed a new behaviour for learning policy and systems which:

- Emphasizes the positive achievements of our pupils
- Embeds our core values in every aspect of Ivydale's culture and community
- Encourages positive learning behaviours
- Reinforces the crucial role 'juicy mistakes' play in learning

The whole-school systems we will use from January 2018 are explained in this booklet.
